

**WHY I AM A NATIONAL SOCIALIST  
AND YOU SHOULD BE TOO**

**ADOLF HITLER**

**Commentary by Rocky J. Suhayda  
Chairman American Nazi Party**

**“If, by the instrument of governmental authority, a people is being driven to its destruction, then rebellion is not only the right but the duty of every member of that people.”**

**ADOLF HITLER**  
**Mein Kampf 1:3**

**I first became aware and interested in the ideology of National Socialism, when I was in High School and discovered Adolf Hitler's book Mein Kampf on the library book shelves.**

**I grew up in the so-called "Civil Rights" era, and graduated in 1969. One of my class electives, had been "Library Science", and since I loved books I had a free hour everyday to research as much as I wished.**

**Being prone to Racism already, and having been made aware of George Lincoln Rockwell and the American Nazi Party, through their Chicago campaign against ML King in 1966, I was able to search and unearth vast amounts of past media coverage of his activities around the nation.**

**Soon I had a huge scrap-book of press clippings of ANP activities, and taking the leap secured the address of the ANP and contacted them. I joined the Party in 1967, and have remained a dedicated National Socialist activist ever since.**

**What attracted me to National Socialism was not so much the "uniforms" or the symbolic "trappings", as did the ideology. I had seen materials from various other racist organizations such as the Klan and the National States Rights Party...but, beyond "hating niggers" and jews, and being for "White Supremacy"...they really had no other "World View", no IDEOLOGY to speak of.**

**And that left me cold. It wasn't simply the "uppity Negroes" that upset me, or the continuous prattling on about the "threat of the Red Menace"...it was a general feeling of degeneracy and plastic materialism that permeated American society.**

**In Adolf Hitlers World - I found so many things that I agreed with, that it amazed me that racist-segregationist White America had gone out of its way, to cross an ocean to destroy this man and his works, as an ALLY no less of the "Evil Communists" that we were now at odds with ourselves.**

**Then I read Mein Kampf and I LEARNED! The words of Adolf Hitler opened my eyes to what the "situation" surrounding me - REALLY was - and what the correct SOLUTIONS to said problems were.**

**You see, even though Hitler's book had been written decades before, the problems that he and the Aryans in Europe had been subjected to, were repeated here in America...almost to a "T".**

**I reasoned that IF the problems were similar, why wouldn't the SOLUTIONS that the National Socialists utilized to correct them there - work HERE - just as well?**

**Finding Rockwell was another conviction in my mind, that I was on the right path as well. If such an intelligent and capable man as this, had reached the same conclusions as this young, inexperienced youth...could I be mistaken?**

**Reading Rockwell's words confirmed in my mind that yes - HITLER was RIGHT - and I resolved to serve the Cause of TRUTH and FACTS, come whatever may. And so my path has led here, to the present day. In this small contribution, I would like to share with you my favorite thoughts of the greatest Aryan of our Folk - ADOLF HITLER**

**What follows are HIS WORDS - from the most mighty book ever written, and which our racial enemies would prefer YOU never READ - Adolf Hitler's MEIN KAMPF**

**My favorite quote from Mein Kampf is found in the very end of the book, in the Conclusion. When we view present day America, against what it once was - nothing more really needs to be said.**

***A state which in this age of racial poisoning dedicates itself to the care of its best racial elements must some day become lord of the earth.***

***May the adherents of our movement never forget this if ever the magnitude of the sacrifices should beguile them to an anxious comparison with the possible results.***

**In Chapter 11, The State - Hitler speaks about the "Evaluation of Work". Hitler was not one of those "born with a silver spoon in his mouth" leaders, like we see ruling over us today - and whom look down upon us White Working Class with scorn, unable to understand our needs and concerns - simply because - how can a wealthy person who has every desire fulfilled without the cost of personal labor understand those far less fortunate...or even care? Every President, Senator, Congressman, Governor, et al - are MILLIONAIRES - where are the true "Representatives of the people"?**

Obviously there are none, and "Political Campaigns" being a MILLIONAIRES GAME - no common people need apply!

Hitler WAS a worker, a "common man" of the PEOPLE...and that is one huge reason "why" the corrupt systemites hate him to this day so viciously. Think about that!

*The evaluation of the man must be based on the manner in which he fulfills the task entrusted him by the community.*

*As surely as the material profit of an invention can be greater than that of an everyday handy-mans service, just as surely does the totality need the small service just as much as the great one.*

*Then it is no longer a disgrace to be an honest manual worker, but it is a disgrace to be an incompetent official, stealing from the honest people.*

*The Racial state, will if necessary, even by education extending over centuries, have to break with the mischief of despising physical labor. On principal it will have to evaluate the individual man not according to the type of work he does but according to the quality of his achievement in said labor.*

I myself, for personal reasons that need not be broached here beyond that my family was poor, was never able to afford to attend "Higher learning".

Yet I did know many who did get the opportunity, simply because "it was the thing to do", or "to have fun" - rather than because they were "more qualified" than myself. How many others were unable to utilize their possible potential for similar reasons...to our nations loss. Hitler address's this as well.

*The "elite class" is so segregated and ossified from reality that they lack a living connection with the people "below" them.*

*It is intolerable that education today is not based on talent or inborn gifts, but on the ability to afford the ridiculous costs involved.*

*Yes, indeed, it is an intolerable thought that every year hundreds of thousands of completely ungifted people are held worthy of a higher education, while other hundreds of thousands with great talent remain deprived.*

*It will be the task of the Racial state to make certain through its educational system that a continuous renewal of the intellectual classes exists, through an influx of fresh blood from all classes of our society.*

**Let us note here, that in National Socialist Germany - education was offered free - to those who could QUALIFY. As well, Trade-School education was offered to those more suited to working with their hands. Compare that to our current "educational system", where an individual can be placed in its hands for twelve years, yet "graduate" capable of what life sustaining "skills"? And in many cases, they are for all intent and purpose - still illiterate! Our educational system has been lowered to meet the capabilities of those of the lowest denominator - "integration" has weakened standards to that of the baboon - and our children, our race, and our entire nation suffer for it.**

**One of the biggest fallacies of the Jewish Big Lie propaganda, was that the people in the National Socialist state were "robots" - I remember one "teacher" in school going on about how "Hitler even told them what color socks to wear..."**  
**What a crock of crap! You want ROBOTS - LOOK around you TODAY! Mindless, unthinking for themselves, SHEEPLE. National Socialism promotes the Cult of the Individual. The INEQUALITY of each and every one of us, and the greatness of those gifted by nature and eugenics.**

***It is one of the highest tasks of the movement to make this principal foremost, not only within its ranks, but for the entire Racial state.***

***Any man who wants to be leader bears, along with the highest authority, also the ultimate and heaviest responsibility for his actions.***

***The progress and culture of humanity are not a product of the majority, but rest exclusively on the genius and energy of the personality.***

***To cultivate the individual personality and establish it in its rights is one of the prerequisites for recovering the greatness and power of our racial Folk.***

**National Socialism view on the question of "money" is also clearly answered.**

***The task of the state towards money and capital itself is comparatively clear. The National Socialist state must make certain that capital remains the servant of the peoples community and not fancy itself the master of the nation.***

***This point of view could then be defined between two restrictive limits - the preservation of a solid, honest, independent economy on the one hand, and the assurance of the social rights of the workers on the other.***

**Another Jewish Big Lie, is that Hitler was a " tool of big business " against the interests of the working man. Let us let Adolf Hitler himself answer that canard, in Chapter 12 - The Trade Union Question**

***I am forced to the viewpoint that, as long as no positive change in the attitude of employer to worker is brought about either by state measures or by a universal new educational system, there remains nothing for the worker to do but stand on his rights as an equal contracting party and defend his own interests in economic life.***

***I further declare that this by necessity must prevail as long as there exist among employers men who, left to themselves, not only have no feeling for social duties, but not even for the most primitive human rights. And from this I draw the conclusion that, once such a self-defense is regarded as necessary, its form can reasonably exist only in a grouping of workers on a trade-union basis.***

**Comrades, there is so much more here that you have never even heard about...that you need to know and understand.**

**Only through a complete comprehension of your adopted ideology, can you find the loyalty and faith to battle for that belief-system with every fiber of your being! Victory means sacrifice on our part.**

**I leave you with this last statement to ponder -**

***When human hearts break, and human souls despair, then from the twilight of the past the great conquerors of distress and care, of disgrace and misery, of spiritual slavery and physical compulsion, look down upon them and hold out their eternal hands to the despairing mortals.***

***Woe to the people that is ashamed to grasp them!***
